## **FSCA publishes its first Integrated Annual Report**

Following the formal process of tabling in Parliament, the Financial Sector Conduct Authority (FSCA) has published its first Integrated Annual Report, detailing the organisation's activities for the 2022/23 Financial Year. The Report demonstrates how the FSCA consistently creates and preserves value and highlights steps undertaken to minimise the value erosion and ensure sustainability.

Having previously conformed to a traditional approach of annual reporting, the FSCA decided to transition to integrated reporting. This approach allows us to provide stakeholders with a balanced and holistic view of the FSCA's performance and broader impact over the past financial year, considering risks, opportunities, and relevant socioeconomic, environmental and technological factors.

This report covers the period from 1 April 2022 to 31 March 2023, and it's available on the link below:
