Introduction

Objectives

The JSE is a licensed exchange in terms of the FMA. Subject to the objects of the FMA, its regulatory duties, powers and functions are narrowly circumscribed by the peremptory provisions of the FMA. In accordance with the FMA, the JSE is obliged to make listings requirements and enforce them. It is an integral function of the JSE to provide infrastructure for the trading of securities listed on the JSE.

The Requirements contain the rules and procedures governing new applications, corporate actions and continuing obligations applicable to applicant issuers and/or listed securities. They are furthermore aimed at ensuring that the business of the JSE is carried on with due regard to the public interest.

The Requirements and any other conditions of listing are binding on applicant issuers, their directors, officers, employees and agents.

Competent authority

The JSE is the holder of an exchange licence in terms of the provisions of the FMA. A company wishing to have its securities dealt on the JSE must apply for a listing and must be in compliance with the requirements of the JSE before being granted such listing. The Board of the JSE is the competent authority responsible for:

- the list of the securities which may be dealt on the JSE;
- applications by applicant issuers for the listing of securities on the JSE; and
- the annual revision of the List.

The Board of the JSE has delegated its authority in relation to the Requirements to the Director: Issuer Regulation (or his/her deputy). When a listings matter is considered by the JSE, representatives of the issuer and other advisers may accompany the relevant sponsor, any of whom may, subject to the JSE's consent, address the meeting. The JSE reserves the right to limit the number of persons attending such meetings.

Section 1

Authority of the JSE

Scope of Section

This Section deals with the authority of the JSE.

General authority of the JSE

- 1.1 The JSE is a licensed exchange in terms of the FMA. The FMA records the JSE's licensed duties and functions, which includes its duty to make and enforce the Requirements.

General principles

- 1.2 The general principles must always be observed in the application and interpretation of the Requirements. The general principles are to ensure:
- (a) the existence of a market for the raising of capital, an efficient mechanism for the trading of securities, and to protect investors;
 - (b) that securities are only listed if the JSE is satisfied that it is appropriate for such securities to be listed;
 - (c) that full, equal and timeous public disclosure is made to all holders of securities and the public regarding the activities of an issuer that are price sensitive;
 - (d) that holders of securities are given full information and are afforded adequate opportunity to consider in advance and vote upon:
 - (i) substantial changes in an issuer's business operations; and
 - (ii) other matters affecting an issuer's constitution or the rights of holders of securities;
 - (e) that all parties involved in the dissemination of information observe the highest standards of care in doing so, which includes adherence to section 81 of the FMA;
 - (f) that holders of the same class of securities are afforded fair and equal treatment in respect of their securities;
 - (g) uniform application of the Requirements, that where the Requirements require specific compliance with local statute, a foreign primary applicant issuer must comply with its foreign equivalent (where there is no such equivalent the JSE must be consulted); and
 - (h) that the Requirements promote investor confidence in standards of disclosure and corporate governance in the conduct of applicant issuers' affairs and in the market as a whole.

Suspension of securities

- 1.3 Subject to 1.11, the JSE may suspend the listing of securities if it will further one or more of the objects of the FMA, which may include:
- (a) non-compliance with the Requirements;
 - (b) failure to remedy the existence of two levels of information in the market;
 - (c) the issuer or any of its major subsidiaries being placed in business rescue or the winding-up/liquidation (provisional or final) of an issuer in terms of the Act, or in respect of a foreign issuer under equivalent statute;

- (d) the Commission issuing a notice to an issuer in terms of section 22 of the Act or deregisters an issuer in terms of section 82(3) of the Act; and
- (e) an issuer ceasing to do business.

The JSE may impose conditions for the lifting of any suspension.

- 1.4 Issuers and/or sponsors must notify the JSE immediately if any events in 1.3 arise.
- 1.5 If a listing is suspended and the issuer fails to take adequate steps to enable the JSE to reinstate the listing within a reasonable period, the JSE may remove the listing.
- 1.6 In terms of section 12(3) of the FMA, the JSE may immediately suspend the listing of an issuer's securities if the Requirements or any conditions imposed by the JSE are not complied with or if a circumstance arises which the Requirements envisage as a circumstance justifying the immediate suspension of trading, provided the immediate suspension does not exceed 30 days, which period may be extended for further periods of 30 days.

Removal of listing of securities

- 1.7 Subject to 1.11, the JSE may remove the listing of securities if it will further one or more of the objects of the FMA, which may include:
 - (a) non-compliance with the Requirements;
 - (b) when holders of securities have approved the removal of listing in terms of 1.9;
 - (c) when an offeror intends to remove a listing through a take-over offer in terms of section 124 of the Act or in respect of a foreign issuer under equivalent statute;
 - (d) on the completion of a scheme of arrangement in terms of sections 114 and 115 of the Act or in respect of a foreign issuer under equivalent statute, where all the securities have been acquired and the JSE is satisfied that the issuer no longer qualifies for listing; and
 - (e) the redemption of securities in accordance with their terms, provided the listing of such securities was first suspended.
- 1.8 Issuers and/or sponsors must notify the JSE immediately if any events in 1.7 arise.
- 1.9 Where an issuer seeks the approval from holders of securities for the removal of listing, the following must be complied with:
 - (a) a circular must be prepared in terms of Section 10 and be sent to holders of securities, stating the reason for the removal;
 - (b) the circular must include a notice of general meeting and a resolution for the removal of listing. At least 75% of the votes of all holders of the securities, present or represented by proxy at the general meeting, must cast their vote in favour of such resolution (excluding any votes from the offeror, their associates and any party acting in concert);
 - (c) a fair offer must be made to all holders of securities disclosing the full terms of the offer; and
 - (d) the board of the issuer must obtain a fairness opinion in terms of Schedule 5, which must be included in the circular, with a statement by the board confirming that the offer is fair to holders of securities of the issuer (excluding the offeror, their associates and any party acting in concert).

Continuing obligations in relation to suspensions

- 1.10 If the listing of securities is suspended, the issuer must:
 - (a) continue to comply with all the Requirements;
 - (b) submit a monthly progress report to the JSE providing details on its current state of affairs and any proposed steps to reinstate the listing;

and

- (c) release an announcement, on a quarterly basis, concerning its current state of affairs and any proposed steps to reinstate the listing, including the date on which the suspension is expected to be lifted.

Suspension and removal process

- (a) inform the issuer of its intention to suspend/remove;
 - (b) give the issuer the reasons for the intended suspension/removal; and
 - (c) call upon the issuer to show cause, within a period specified by the JSE, why the suspension/removal should not be effected.

Revision of the List

- 1.12 The JSE will revise an issuer's listing annually after receipt of an annual compliance certificate (available on the JSE Forms Portal), which must accompany the issuer's annual report in terms of 6.44. If the certificate is not submitted to the JSE, the JSE will on the first business day after failure to submit the certificate:
- (a) annotate the listing on the trading system with an "R" to indicate failure to comply; and
 - (b) release an announcement, advising that the issuer has not provided the JSE with the certificate and cautioning holders of securities that the issuer's listing may be under threat of suspension if the certificate is not submitted to the JSE.

Disclosure of information

- 1.13 The JSE may require an issuer to disclose:
- (a) to it any information at the issuer's disposal about listed securities, or about the affairs of that issuer, if such disclosure is necessary to achieve one or more objects of the FMA; and
 - (b) that information to the holders of securities through an announcement, within a period specified by the JSE.
- 1.14 If an issuer refuses to disclose the information to the JSE or to the holders of securities, the JSE may, unless the issuer obtains a court order excusing it from such disclosure, suspend the listing of those securities until such time as the required disclosure has been made to the satisfaction of the JSE.
- 1.15 The JSE may require an applicant issuer to provide for the dissemination of any further information not specified in the Requirements, in such form and within such time limits, as it considers appropriate. If the applicant issuer fails to comply, the JSE may announce the information after affording the applicant issuer the opportunity to make representations.

Section 6

Continuing Obligations

Scope of Section

This Section deals with the continuing obligations for issuers.

Continuing obligation principles

Announcements

- 6.1 The JSE has established the SENS platform as a result of a need to disseminate relevant company information to the market on a real time basis. To ensure that shareholders and the investing public only receive relevant information, issuers and sponsors must ensure that the information that they announce constitutes relevant company information, being company announcements explicitly required in terms of the Requirements and/or price sensitive information.
- 6.2 Announcements must be in English and comply with Appendix 1 to Section 6. Announcements may only be made available on the issuer's website simultaneously or after it has been announced.
- 6.3 Any announcement of price sensitive information may not be released to any third party under a time embargo before it is announced.
- 6.4 Issuers must submit all announcements to their sponsors for approval prior to release.
- 6.5 The name of the sponsor must appear on all announcements and documents issued by the issuer.

Conflicts

- 6.6 If there is any conflict between the application of the Requirements and adherence to any statute, the Requirements must be adhered to unless specifically otherwise directed by statute or a court of law.

Prescribed information to shareholders

- 6.7 An issuer must:
 - (a) inform shareholders of general meetings that they are entitled to attend;
 - (b) enable shareholders to exercise their right to vote, where applicable; and
 - (c) release results, announcements and distribute circulars in terms of the Requirements.

Rights between holders of securities

Equality of treatment

- 6.8 An issuer must ensure that all holders of any class of its securities receive fair and equal treatment.

Voting rights

- 6.9 An issuer must not issue any securities with voting rights differing from other securities of the same class, save for weighted voting shares in terms of Section 2. Where an issuer currently has listed low or high voting securities prior to the incorporation of weighted voting shares in the Requirements, the JSE will grant a listing of additional securities of that class.

Pre-emptive rights

- 6.10 Listed securities in each class must rank *pari passu* in respect of all rights
- 6.11 Subject to 6.13, an issuer proposing to issue equity securities for cash must

first offer those securities in terms of a rights offer, to existing holders of equity securities in proportion to their existing holdings.

- 6.12 If permitted by the Commission and subject to the prior approval of the JSE, an issuer need not comply with 6.11 for securities that the issuer considers necessary to be excluded from the rights offer due to legal impediments or compliance with the requirements of any regulatory body of any territory recognised.

Waiver of pre-emptive rights

- 6.13 The issue of securities made otherwise than through a rights offer, will be permitted if, in accordance with:
- (a) a specific and/or general authority to issue shares for cash in terms of Section 7; or
 - (b) an acquisition issue in terms of Section 8 and vendor consideration placing in terms of Section 7.

Listing fees

- 6.14 An issuer must pay the listing and other JSE fees as published on the JSE website. Failure to pay any fees due may result in the censure of the issuer in terms of Section 1.

General continuing obligations

Listing criteria

- 6.15 Issuers must comply with the control listing criteria in terms of Section 2. If there is a failure to comply with this provision, the issuer must notify the JSE.
- 6.16 Issuers must use their best endeavours to comply with the free float listing criteria in terms of Section 2. If there is a failure to comply with this provision, the issuer must notify the JSE.

Corporate Governance

- 6.17 Issuers must comply with the corporate governance continuing obligations in Section 5.

MOI

- 6.18 All amendments to the MOI must be approved by the JSE and shareholders.

General obligation of disclosure

- 6.19 With the exception of trading statements below, an issuer must, without delay, unless the information is kept confidential for a limited period of time, release an announcement providing details relating, directly or indirectly, to such issuer that constitutes price sensitive information. Apply Practice Note 2/2015

Confidentiality

- 6.20 Subject to 6.21 and 6.22, information that is required to be announced in terms of the Requirements, including price sensitive information, must not be disclosed until announced.
- 6.21 Issuers may, if deemed necessary, disclose inside information in terms of section 78(4)(b) of the FMA, prior to such information being announced. If an issuer believes or suspects that the confidentiality of such information cannot be maintained, the issuer must immediately:
- (a) notify the JSE; and
 - (b) ensure that such information is announced.
- 6.22 When an issuer intends to disclose any information as contemplated in 6.21 at

any meeting or forum, such information must be announced either before or at the same time as the meeting or forum. If any information is disclosed inadvertently during the meeting or forum prior to it being announced, the issuer must immediately:

- (a) notify the JSE; and
- (b) ensure that such information is announced.

Cautionary announcements

- 6.23 Immediately after an issuer knows of any price sensitive information and the confidentiality cannot be maintained or if the issuer suspects that confidentiality has or may have been breached, an issuer must release a cautionary announcement. Apply Practice Note 2/2015
- 6.24 Cautionary announcements must contain disclosure of all available details regarding the information and contain a warning to shareholders that they must exercise caution when dealing in their securities, until full details of the information have been announced. If an issuer is unable to announce the information, such cautionary announcement must be in the format of a first cautionary announcement (available on the JSE Forms Portal).
- 6.25 After an issuer has issued a cautionary announcement, it must renew the cautionary announcement (available on the JSE Forms Portal,) every 30 business days thereafter unless the JSE allows otherwise, until full details of the information have been announced. Once full information has been announced, the cautionary announcement must be withdrawn (template available on the JSE Forms Portal)

Trading statements

- 6.26 Subject to 6.19, issuers must announce a trading statement as soon as they are reasonably certain that the results for the period to be reported upon next will differ by at least 20% from the most recent results below:
 - (a) the published* results for the previous corresponding period; or
 - (b) a profit forecast in terms of Section 11 previously published in relation to such period.

*In respect of a new listing these provisions will apply to the previous corresponding period notwithstanding that the results were not published.

- 6.27 The results measure is headline earnings per share and earnings per share, and if more relevant (because of the nature of the issuer's business) net asset value per share ("navps"). If an issuer wishes to adopt navps, it must announce the election in advance of the first period ending.
- 6.28 Property entities may elect to adopt distribution per listed security as their results measure provided it is relevant and adhere to the following:
 - (a) they must announce the election in advance of the first period ending; and
 - (b) the 20% trigger for the announcement in 6.26 is 15%.
- 6.29 The determination of a reasonable certainty is a judgmental decision which has to be taken by the directors of the issuer.
- 6.30 Trading statements must provide specific guidance by including the period to which they relate, the comparative numbers for the periods in 6.26, and:
 - (a) a specific percentage and number to describe the differences; or
 - (b) a range (e.g. the issuer is expecting an increase of between 15% and 25%) and numbers to describe the differences, provided the range must not exceed 20% (e.g. 20% to 40%, 25% to 45% etc.); or
 - (c) the minimum actual difference in percentage and number for which the issuer has reasonable certainty, together with any other information available to the issuer, provided that (a) or (b) must then be announced

once reasonable certainty is obtained in relation to either of these disclosures.

The specific percentage as referred to in (a) to (c), need only be provided if less than 100%.

If the range required by (b) translates into a very small number, the JSE can be consulted for a ruling to permit a wider range.

- 6.31 If, after publication of a trading statement but before publication of the relevant results, an issuer becomes reasonably certain that its previously published trading statement is incorrect, then the issuer must publish an updated trading statement.
- 6.32 When announcing a trading statement, an issuer must comply with the provisions dealing with profit forecasts or estimates in Section 11.
- 6.33 Issuers that announce quarterly results may apply the trading statements provision on a voluntary basis. If not applied, such issuers must include commentary in each quarterly results announcement on the expected performance of the issuer for the next quarter. The commentary is exempted from compliance with the provisions dealing with profit forecasts and estimates in Section 11.

Press announcements

- 6.34 Announcements requiring publication in the press must be published in a widely circulated daily newspaper taking into account the composition and demographics of the issuer's stakeholders, in the reasonable opinion of the issuer, in any official language.
- 6.35 Publication in the press can be made through a short-form announcement. The following details must be included in the short-form announcement:

 - (c) a statement that:
 - (i) the full announcement/results has been released and is also available on the issuer's website; and
 - (ii) any investment decision should include consideration of the information in the full announcement/results;
 - (d) a short-form announcement dealing with results must disclose the following increases/decreases compared to the results for the previous corresponding period:
 - (i) revenue/profit;
 - (ii) headline earnings per share;
 - (iii) earnings per share;
 - (iv) dividend/distribution; and
 - (v) net asset value, only if more relevant because of the nature of the issuers business.

To the extent that any of the above indicators in (i)-(v) are not considered to be a true measure to reflect the performance of an issuer in the banking and property industries, the JSE may waive the requirement to publish such information or agree to a relevant alternative indicator/s; and

- (e) where the auditor has issued a report on the results, the name of the audit firm, a statement of the type of audit opinion/review conclusion that was reached (unmodified, qualified, disclaimer or adverse) and a statement to that effect if any disclosure of the following exists:
 - (i) material uncertainty relating to going concern;
 - (ii) emphasis of matter;

- (iii) a reportable irregularity (as defined in the Auditing Profession Act); and

 - (b) the auditor is obliged to notify the JSE and the audit committee of the applicant issuer, where the applicant issuer misrepresents the content of its auditor's report. Such notification must be made by the auditor within 48 hours of the date the auditor became aware of the matter.
- 6.38 The issuer must ensure that the individual auditor appointed to sign the assurance engagement report/s referred to in Section 11 has the necessary knowledge, resources and expertise and/or attended the relevant training to provide the appropriate advice on the application of the Requirements before any document or announcement is submitted to the JSE.

Notifications in respect of the auditor

- 6.39 An issuer must notify the JSE of:
- (a) the appointment of the auditor;
 - (b) the termination, non-reappointment or resignation of the auditor; and/or
 - (c) any change of the individual auditor,
- within two business days following the decision. The notification must state the effective date and confirm to the JSE that the appointment complies with 6.36 and 6.37.

 - (b) the reason(s) for the change;

This approach must be applied to all corporate actions and the issuer must ensure that the ratio of entitlement is applied to the beneficial securities holders within a nominee company

- 6.73 In the announcement on the appointment of a director above, the board must confirm that a fit and proper assessment has been undertaken on the director and that the board is satisfied with the outcome.

The issuer must announce the positive statements in the declaration that has bearing on the

director, save that personal information, qualifications and experience need not be announced (the "integrity information") within one business day from receipt of the information. If there are no positive statements, a general negative statement must be made in relation to the declaration. The integrity information to be announced will be limited to a period of five years before the date of appointment.

 - (d) the date of the dealing;
 - (e) the price, number, total value and class of securities. If no price is attributable to the dealing (e.g. donations), a deemed value based on the prevailing market price must be disclosed. Aggregation and averaging of prices are not allowed, however in instances of various trades with variable prices during the course of a day, the volume weighted average price must be disclosed together with the highest and lowest trading prices for the day;
 - (f) in the case of options or any other similar right or obligation, the option strike price, strike dates and periods of exercise and/or vesting;
 - (g) where securities of the issuer are used as security, guarantee, collateral or otherwise granting a charge, *lien* or other encumbrance, the announcement must disclose the nature, term and amount of the financial obligation as well the number, value and class of securities offered as security, guarantee, collateral or otherwise; and

issuer's securities. It should be noted that, if shares are sold and the equivalent exposure is purchased through a single stock future or any other derivative, both legs will be deemed to be dealings. The closing out of a single stock future or other derivative is also a dealing. The rolling-over of a single stock future that is merely an extension of an existing position is not a dealing;

- (e) the acceptance, acquisition, disposal, or exercise of any option (including but not limited to options in terms of a share incentive/option scheme) to acquire or dispose of securities;
- (f) any purchase or sale of nil or fully paid letters, however excluding following full or partial entitlements as a shareholder through means of a renounceable rights offer (excess applications permitted), non-renounceable rights offer, capitalisation issues, scrip dividends and dividend reinvestment, and receiving the subsequent allocation of such securities pursuant to such entitlements;
- (g) the acceptance, acquisition or disposal of any right or obligation, present or future, conditional or unconditional, to acquire or dispose of securities;
- (h) using securities of the issuer as security, guarantee, collateral or otherwise granting a charge, *lien* or other encumbrance over the securities of the issuer. A dealing will be deemed to be present at each of the following trigger events –
 - (i) at the time of agreement of such arrangement;
 - (ii) at the time when a right or discretion afforded to a lender is being exercised; and
 - (iii) at the time an existing arrangement is being amended or terminated; or
- (i) any other dealing that will provide direct or indirect exposure to the share price of the issuer. Cash settled share appreciation rights granted to directors in the ordinary course of business do not constitute a dealing.

6.80 The director must disclose to the issuer all information in 6.79, without delay and, in any event, by no later than three business days after dealing. The issuer must in turn announce such information without delay and, in any event, by no later than 24 hours after receipt of such information from the director concerned.

Clearance to deal

- 6.83 A director may not deal in any securities in the issuer without receiving clearance in advance from the chairman or other designated director. The JSE may waive this requirement where the director has no discretion in the transaction.
- 6.84 A director must not be given clearance to deal in any securities in the issuer during a prohibited period.
- 6.85 A written record must be maintained by the issuer of any request received from a director in terms of 6.83 and of any clearance given. A director may request confirmation from the issuer that such request and clearance, if any, have been recorded.

- 6.88 A director must advise his/her investment manager that they may not deal in any securities relating to issuer(s) of which he/she is a director unless it obtains his express consent.
- 6.89 The dealings provisions do not override the FMA and should not be construed as additional defences or exclusions from having to comply with the FMA.

Dealings by share incentive schemes

- 6.90 The provisions of 6.78 to 6.89 apply *mutatis mutandis* to any dealings by the issuer or a scheme (including a non-dilutive scheme) involving securities relating to the scheme, save for in the following circumstance:
- (a) the instruction to deal was given by a participant of the scheme (other than a director), where shares in the issuer have vested in favour of the participant in terms of the scheme;
 - (b) the scheme is merely facilitating the dealing on behalf of the participant;
 - (c) the participant takes the risk of any profit or loss in respect of the dealing; and
 - (d) the trustees of the scheme, any other party responsible and the issuer do not exercise any election/decision in respect of such dealing, other than following and acting on the specific instructions of the participant.

A non-dilutive scheme means any share incentive scheme not involving the issue of equity securities by the issuer. The JSE may adjust the timing on announcements.

Exercise of options to subscribe for securities (including options in terms of executive and staff share schemes)

- 6.91 Applications for listing/s of shares resulting from options must be made in terms of application available on the JSE Forms Portal. Application for listing of shares in terms of executive and staff share schemes may either be for block listings or for specific allotments. Subsequent issues of securities in terms of the scheme will be subtracted from the initial block until that block is exhausted, after which a further block listing will be required.

Business Rescue

- 6.92 If the issuer is placed in business rescue in terms chapter 6 of the Act, it must immediately release an announcement.
- 6.93 The issuer must as soon as possible notify the JSE, whether it is able to:

 - (b) announce price sensitive information in terms of the Requirements, to allow shareholders to make an informed investment decision; and

- 6.94 If the issuer is unable to make positive statements in respect of the above, its listing may be suspended in terms of Section 1.
- 6.95 An issuer in business rescue will not be required to obtain shareholders' approval for transactions and corporate actions, unless required by the Act.

- 6.96 If an issuer is a holding company and a subsidiary is placed in business rescue, 6.95 will equally apply to transactions and corporate actions at the subsidiary level.

Court applications

Section 8

Transactions

Scope of Section

This Section deals with transactions, principally acquisitions and disposals, by issuers and their subsidiaries.

Additional requirements relating to transactions are set out in Section 9 (Transactions with Related Parties), Section 13 (Property Entities) and Section 14 (Mining and Oil/Gas) and Section 15 (Investment Entities and SPACs).

General

8.1 A transaction by an issuer:

(a) includes:

- (i) a transaction by its subsidiary; and
- (ii) the grant or acquisition of an option to acquire or dispose of assets as if the option had been exercised, provided that where the right to exercise is solely at the issuer's discretion, the transaction must be categorised on exercise of the option. If at the issuer's discretion, only the premium/consideration for the option must be categorised at the date of such grant or acquisition; and

(b) excludes:

- (i) an issue of securities (other than an issue by subsidiaries in terms of 8.34 - 8.36);
- (ii) a transaction to raise finance, which does not involve the acquisition or disposal of assets, and is not with a related party;
- (iii) a transaction with or between wholly owned subsidiaries; and
- (iv) a transaction in the ordinary course of business where:
 - (aa) subject to 8.2, the categorisation percentage is less than 30% for main board issuers and less than 50% for main board issuers in the general segment and ALT^x issuers; or
 - (bb) the issuer or its subsidiary is a financial institution (as defined in the Financial Sector Regulation Act, No. 9 of 2017) and where funds are used (such as policyholders funds or trust property) which are not held primarily for the benefit of its shareholders and the transaction is not with a related party.

8.2 The JSE must determine whether a transaction is in the ordinary course of business and in its assessment, the JSE will have regard to:

- (a) the nature of business of the transacting parties;
- (b) the incidence of similar transactions;
- (c) the size measured against similar transactions;
- (d) whether the transaction contributes to the issuer's existing income arising in the ordinary course of the issuer's activities;
- (e) whether the transaction contributes to costs that relate directly to the income contemplated in (d) above; and
- (f) whether the transaction is in the ordinary course of business for both transacting parties.

Categorisation

8.3 A transaction is categorised by assessing its size relative to that of the issuer.

- 8.4 The categorisation is expressed as a percentage. The categories of transactions are:
- (a) Category 2: 5% or more but less than 30%; and
 - (b) Category 1: 30% or more or if the consideration is not subject to any maximum.

Categorisation calculation

- 8.5 The categorisation percentage must be calculated before the announcement of terms, excluding treasury shares, and is calculated as follows:
- (a) consideration:
the consideration measured against the market capitalisation of the issuer; or
 - (b) dilution:
the number of listed securities issued measured against those currently in issue; or
 - (c) settled partly in cash and shares:
the categorisations percentages in (a) and (b) above must be aggregated.
- 8.6 In circumstances where:
- (a) the categorisation produces an anomalous result; and/or
 - (b) the transaction components are not included at fair value,
- the JSE may require a valuation on the transaction values or use other relevant indicators of size to determine the categorisation.

Calculation of consideration

- 8.7 When calculating:
- (a) consideration that is to be settled in securities to be listed, the consideration will be the aggregate market value of those securities before the announcement of terms;
 - (b) consideration that is to be settled in cash, the consideration is the amount paid to the vendor/s. The JSE may require the inclusion of further amounts such as the discharge of any liabilities, whether actual or contingent, of the seller/s as part of the transaction;
 - (c) a deferred consideration payable, the consideration is the maximum possible consideration; and
 - (d) consideration that is to be settled through a new class of listed equity securities, the consideration will be the issue price of such securities or, if no price is attributable thereto, the expected aggregate market value.

Indemnities and similar arrangements

- 8.8 Any agreement with a party, outside the issuer's group:
- (a) where the issuer agrees to discharge liabilities, costs, expenses, commissions or losses incurred by that party, whether actual or contingent;
 - (b) which is exceptional; and
 - (c) where the maximum liability is unlimited,
- will constitute a category 1 transaction. Items not deemed exceptional are indemnities that are customarily given with sale and purchase agreements and indemnities given to advisers against liabilities to third parties for providing advisory services, are not exceptional.

Aggregation of transactions

- 8.9 Transactions (other than ordinary course of business transactions) entered into during the 12 months prior to the date of the latest transaction must be aggregated with the latest transaction to determine the categorisation of the latest transaction. Aggregation is determined by adding the categorisation percentage/s at the time of the previous transaction/s with the categorisation percentage of the latest transaction. A previous category 1 transaction will not be aggregated, unless it results in a reverse take-over when taken into account, in which case the reverse take-over requirements must be applied.
- 8.10 Transactions will only be aggregated if they:
- (a) are entered into with the same party or its associates;
 - (b) involve the acquisition or disposal of securities or an interest in one company or asset; or
 - (c) lead to substantial involvement in a business activity that did not form a part of the issuer's/group's principal activities.
- 8.11 Where aggregation results in a category 1 transaction, shareholders' approval is required in respect of the latest transaction only.

Cash company

- 8.12 If a disposal results in the creation of a cash company, the following will apply:
- (a) if within twelve months after classification as a cash company, the issuer fails to enter into an agreement and make an announcement relating to the acquisition of assets that satisfy the listing criteria in Section 2, its listing may be suspended;
 - (b) should a cash company fail, within six months of suspension, to obtain approval from the JSE for a circular relating to the acquisition of assets, its listing may be removed; and
 - (c) where a cash company is utilised for a reverse takeover, the reconstituted company must comply with the listing criteria in Section 2.

- (a) particulars of the transaction, including:

- 10.22 An applicant may not seek the listing of securities by way of an introduction if there are any pre-existing intentions by any holder(s) (other than public shareholders) to dispose of a material number of their securities at or immediately after listing. - 10.26 An offer for sale or subscription need not be underwritten.

- 10.35 In relation to an acquisition issue, if the consideration for the acquisition or offer is revised, resulting in the issue of a greater number of shares than for which application for listing will be made, a supplementary PLS may be required.
- 10.36 In relation to an offer that involves the exchange of securities for securities of another company, and the offer consideration is revised to include a new class of security for which an application for listing is to be made, only additional information applicable to the issue of the new class of securities must be contained in a supplementary PLS.

Schedule 5: Independent Fairness Opinion

Appointment

- 1.1 It is the responsibility of the board to appoint an independent professional expert (the "expert") in terms of this Schedule to prepare and publish a fairness opinion in terms of Section 1 and if the directors elect to obtain an opinion on a voluntary basis and wish to make the opinion available in the market.
- 1.2 The board must ensure that any director who is party to the transaction/corporate action (being the subject matter of the fairness opinion) is excluded from the process of mandating the expert and providing the recommendations to the board.
- 1.3 The board must determine the competency and independence of the expert. In support of these determinations the following must be submitted to the JSE, with the fairness opinion:

Removal of Listing

The following applies:

- 1.6 The expert must perform a valuation of the issuer as whole.

- 1.8 The expert's opinion must include full disclosure of the valuation number both including and excluding any discount or premium applied. There must be separate disclosure of the details and value attributed to each of the different types of discounts or premiums that the expert has applied to the valuation in reaching their opinion.
- 1.9 The expert must explain why they believe that each of the discounts or premiums is relevant in the circumstances.
- 1.10 The inclusion of a valuation range (for both the entity valuation and the discounts/premiums) as opposed to an absolute figure is acceptable, but that range should not be so wide as to render it meaningless and the opinion must include justification for the size of the range. The JSE may ask the expert to narrow that range.

Schedule 6: Pre-Issued Trading and Price Stabilisation

Pre-Issued Trading

- 1.1 Pre-issued trading are transactions effected in pre-issued securities in accordance with the JSE equity rules and directives.
- 1.2 Pre-issued trading is for a limited period and is conditional on the securities being listed.
- 1.3 Applicant issuers must submit a formal application applying for pre issued trading.
- 1.4 The JSE may permit pre-issued trading, subject to:
 - (a) approval being granted for the listing and the prelisting announcement being published;
 - (b) the listing being an offer for sale or subscription and of such a size that, in the opinion of the JSE, it is appropriate to permit pre-issued trading
- 1.5 Pre-issued trading will commence and end on such dates as the JSE specifies, provided that the pre-issued trading must end the day before listing of the securities.
- 1.6 All transactions effected during the period of the pre-issued trading will only settle once the official listing has taken place.
- 1.7 If the listing does not commence on the intended listing date, every transaction effected during pre-issued trading will be void ab initio in accordance with the JSE equity rules and directives.

Price Stabilisation

- 1.8 The purpose of this section is to define the circumstances and manner in which price stabilisation will be permitted by the JSE, in accordance with the provisions of the FMA, and as a defence against prohibited trading practices, as stipulated in the FMA. Price stabilisation may be effected through an over-allotment, with or without a greenshoe. Over-allotment is a pre-cursor to a price stabilisation mechanism, aimed at supporting and maintaining the price of newly listed securities or securities the subject of a substantial offer, for a limited period after the listing or offer. The main purpose is to establish an orderly market for securities in the immediate secondary market after an offer.
- 1.9 The process of price stabilisation usually involves the stabilising manager, on behalf of the Bookrunners, allotting a greater number of securities than will be issued or sold, resulting in a net "short" position for the stabilising manager. Should the price of the securities drop below or remain at the issue price when securities begin to trade in the secondary market, the stabilising manager may purchase the securities to cover its "short" position and counteract the selling pressure. The "Greenshoe" from the issuer or substantial holder of relevant securities allows the stabilising manager to obtain the same number of securities that have been over-allotted, by exercising the option at the issue price. The stabilising manager may also allot more securities than the greenshoe, which is known as a naked short, or fewer securities. The stabilising manager may either close the net "short" position by exercising all or part of the greenshoe or by purchasing the securities in the market.

Definitions

ancillary stabilising action	action permitted under 1.12 enabling the stabilising manager to over allot securities in order to facilitate the subsequent purchase of the securities;
greenshoe	an option or other right, granted for a specified period of time, exercisable by the stabilising manager, to acquire up to a specified number of securities in addition to the initial issue number, to enable it to honour the commitments made during the stabilisation period;
introductory period	the shorter of (i) the period starting at the time of the

	first public announcement of the offer and (ii) the period starting 45 days before the commencement of the stabilisation period, and ending at the beginning of the stabilising period;
issue price	the price at which securities are issued or sold in the relevant offer;
over-allotment	the allotment of shares in excess of the number of securities to be issued or sold in the offer;
stabilising manager	the entity responsible for stabilising action under these requirements and referred to in 1.11(a), 1.12(a), 1.21 and 1.22;
stabilising action	any action contemplated by 1.11 and 1.12;
stabilising price	the initial price, at or below the issue price, up to which the stabilising manager has determined that it may wish to intervene in the market by way of stabilising action; and
relevant exchange	the JSE or any exchange approved by the JSE, for the purpose of price stabilisation.

Specific Requirements

- 1.10 Price stabilisation may only be effected in respect of an offer of securities, and must comply with the following criteria:
- (a) the offer must be an offering or issue of securities for cash, made at a specified price;
 - (b) the offer must be for securities which are already listed or are to be listed;
 - (c) the offer must be of sufficient size to satisfy the JSE that price stabilisation is warranted. Such size is to be determined in consultation with the JSE.

Permitted stabilising action

- 1.11 The stabilising manager may, subject to compliance with 1.12 undertake:
- (a) to purchase, agree to purchase, or offer to purchase any relevant securities with the aim of stabilising the market price of the relevant securities; and
 - (b) to take certain ancillary action with the aim of stabilising the market price of the relevant securities or liquidating any positions taken as a result of the stabilising process.

Permitted ancillary stabilising action

- 1.12 The stabilising manager may, subject to compliance with 1.13:
- (a) with a view to stabilising action in relevant securities:
 - (i) make allotments of a greater number of the relevant securities than will be offered;
 - (ii) sell, offer to sell, or agree to sell relevant securities in order to establish a short position in them;
 - (iii) achieve a result equivalent to that in 1.12(a)(ii), by the use of derivatives;
 - (b) purchase, offer to purchase, or agree to purchase relevant securities in order to close out or liquidate any position established under the process of stabilising action;
 - (c) sell, offer to sell, or agree to sell relevant securities in order to close out or liquidate any position that has been established by stabilising action; or
 - (d) achieve a result equivalent to that in 1.12(c), by the use of derivatives.

Conditions to be fulfilled

- 1.13 The following are conditions which the stabilising manager must reasonably believe have been fulfilled before any stabilising action is taken:
- (a) from the beginning of the introductory period, adequate disclosure has been made in all communications issued by or on behalf of the issuer or the stabilising manager to prospective investors in the securities, of the fact that stabilisation may take place in relation to the relevant offer, as stipulated in 1.19 and 1.20;
 - (b) the relevant exchange on which the securities are or will be traded has been informed that stabilising action in such securities may take place during the stabilising period;
 - (c) that the price is not already artificial at the start of the stabilising period;
 - (d) the terms on which the securities may be issued, sold, exchanged for, or converted into, or the rights of the holders of the securities to subscribe for, or to acquire other securities, have been finally settled and publicly announced;
 - (e) the stabilising manager has established a register to record, in relation to each stabilising transaction effected in the securities, the matters required to be recorded in terms of 1.21 to 1.24; and
 - (f) stabilisation may only take place during the stabilisation period.

Stabilisation period

- 1.14 If the JSE permits trading in the securities prior to listing, the stabilisation period will commence on the date such trading commences. Otherwise, the stabilisation period will commence on the date of the listing of the securities, or the date of their sale if already listed. The stabilisation period will end 30 calendar days after the relevant listing or sale date.
- 1.15 The stabilising manager is under no obligation to stabilise securities.

Pricing

- 1.16 The initial stabilising price (Price X) cannot exceed the offer price (or starting price) (Price Y), and subsequent stabilising action must equally be at or below the level of Price X. If there are no sales and purchases which are independent of the stabilising manager on both sides on the relevant exchange above Price X, the stabilising manager can operate at a price or at prices below Price X, moving up or down in that area as he wishes. But if an independent buyer and seller do a deal on the relevant exchange, at a price (Price Z) between Price X and Price Y, then the stabilising manager has a new maximum price (Price Z) instead of Price X.
- 1.17 The provisions of 1.16 will not prevent the stabilising manager from purchasing, offering to purchase or agreeing to purchase securities in order to close out a short position that is not covered by a greenshoe.

Over-allotment size

- 1.18 The over-allotment may not be more than 15% of the issue size.

Disclosures

- 1.19 Disclosure of the fact that stabilisation may take place should be provided in all communications issued by or on behalf of the issuer or stabilising manager to prospective investors in the securities in respect of the relevant offer.
- 1.20 For the preliminary offering circular (or prospectus) and/or final offering circular (or prospectus) the disclosure should contain:
- (a) the following text "In connection with this offer [name of stabilising manager] may over-allot or effect transactions which may support the market price of [description of securities] at a level higher than that which might otherwise prevail for a limited period after the listing date.

However, there is no obligation on [name of stabilising manager] to do so. Such stabilising action may under no circumstances continue beyond the 30th calendar day after the listing date"; and

- (b) where the stabilising manager has an option or other right to purchase relevant securities from the issuer or an existing securities holder for the purposes of stabilisation; and that option or right may be exercised or relied on after the start of the introductory period and during or after the remainder of the stabilising period, the existence and terms of such an option or right must be disclosed in the relevant prospectus or offering document.

Register

1.21 No bid may be made or transaction effected in the course of stabilising action unless:

- (a) the stabilising manager concerned has established the relevant register in compliance with 1.22 and 1.23; and
- (b) the stabilising manager is in compliance with the registration requirements in 1.22 and 1.23 in respect of all earlier transactions effected by it in the course of stabilising action in connection with the relevant offer in question.

1.22 The person responsible for the register must ensure that it contains, either in real time or updated overnight (from business day to business day), information on:

BEE SPV

General

- 1.4 A BEE SPV must either appoint a sponsor pursuant to Section 4 of the Requirements, or the DSS Listings Requirements. The sponsor must therefore execute its obligations under the Listings Requirements or the DSS Requirements, as the case may be.
- 1.5 The JSE may consider suspending the listing of a BEE SPV in accordance with Section 1 of the Requirements or the DSS Listings Requirements, if the underlying applicant issuer which the BEE SPV references is suspended.

Criteria for listing of a BEE SPV

- 1.6 An applicant seeking a listing as a BEE SPV must satisfy the following criteria:
 - (a) it must have committed capital (to be received from the issue) or subscribed capital of at least R10 million prior to listing;
 - (b) it must have assets that are held by a trust, a ringfenced entity or through an applicant issuer that has the quality of insolvency remoteness from the arranger or applicant issuer of the underlying assets, subject to JSE approval, which must be administered by trustees or board representing the interests of the security holders of the BEE SPV. A separate trust, company or entity may be required for each class of asset with respect to the issuance of BEE SPV relating to a different composition of assets. If the assets are held via a vehicle other than a trust the JSE must be satisfied that such vehicle provides similar protections to safeguard the assets and, in particular, the powers and duties of the directors (or, in the event that the vehicle is not a company, the persons with corresponding duties and powers in relation to that vehicle) must be limited as though the director is a trustee. Thus, the provisions of this paragraph that apply to trustees and trusts must apply *mutatis mutandis* to the directors and the vehicle used to hold the assets;
 - (c) the applicant issuer of the underlying assets must be listed on an exchange acceptable to the JSE. If not listed, the JSE must be consulted at an early stage to consider the suitability of the applicant issuer; and

- (d) it must have 10% of each class of equity securities held by public shareholders to ensure reasonable liquidity.

1.7 Where the underlying assets are equity in nature the BEE SPV must:

- (a) have underlying assets that are listed on the JSE. If the underlying assets are not listed or listed on another exchange, the financial information of the underlying assets must be published in accordance with 6.44 to 6.50. The procedure for non-compliance will apply accordingly on the listed BEE SPV as set out in 6.51 if the financial information on the underlying assets is not published, and
- (b) have underlying assets which are minority interests and must not confer legal or management control of the listed companies.

Requirements for a PLS

1.8 The PLS must be prepared in accordance with Section 6 and must also include the following:

- (a) in respect of the applicant issuer:
 - (i) a description of the rights of the holders of securities in the event of the liquidation and/or business rescue proceedings of the applicant issuer and the applicant issuer of the underlying asset; and

- (c) a statement that the PLS is available on the applicant issuer's website along with a web-link;
- (d) a statement detailing the risks of investing in securities and all possible material risks and uncertainties facing the applicant issuer and the industry in which it operates or is invested in. Proper consideration must be given to the material risks that face the applicant issuer and generic disclosures must be avoided. Material risks should be grouped together in a coherent manner and material risks considered to be of the most immediate significance should be prominent at the beginning within the material risks disclosure. This should include details of the trading risk as well as the risk of the applicant issuer not being able to fulfill its obligations, notwithstanding the fact that the applicant issuer will have been obliged to comply with the Listings Requirements. The statement must also detail the following:
 - (i) the restrictive nature of ownership of the BEE SPV;
 - (ii) including the potential punitive measures and forced sales if ineligible participants acquire securities or become ineligible post the acquisition of securities and do not remedy the situation within the prescribed timeframes, and
 - (iii) risks associated with the funding structure; and

- (c) if the BEE SPV does have a financial history, same should be disclosed for a maximum of two years;
- (d) the financial information in (b) and (c) must have been prepared in terms of 11.2 – 11.7, if applicable; and
- (e) if the underlying asset is unlisted, the applicant issuer must publish the following financial information on the underlying asset:
 - (i) which have been prepared in respect of at least the last two financial years and the latest audited financial statements of such underlying asset must be in respect of a period not ending more than 12 months before the date of the PLS; or

The applicant issuer must engage the JSE regarding any proposed changes at an early stage in order for the JSE to determine whether the changes require approval from the holders of securities in a general meeting;
 - (b) publish an announcement, without delay, details of any new issue of securities (and, if applicable, guarantees, security or credit enhancements relating thereto), as well as any amendments and proposed amendments to the terms and conditions attaching to existing listed securities, unless agreed otherwise by the JSE;
 - (c) publish its annual financial statements in accordance with 6.44 and 6.47 – 6.50. The procedure for non-compliance as set out in 6.51 will apply to a BEE SPV that fails to comply with 6.47. In addition, the requirements of 6.52 will also apply where a modified auditors' report has been issued on a BEE SPV's annual financial statements;

Price Sensitive Information

Directors of issuers are currently required, and will continue, to apply their own discretion in determining what will constitute price sensitive information and in doing so directors must apply quantitative and qualitative measures to their assessment. If there is any uncertainty as to what constitutes price sensitive information, then the issuer's sponsor must be consulted. If doubt remains, the issuer must assume that the information is price sensitive in order to avoid selective disclosure which could lead to confusion in the market. If in doubt, publish.

The definition of price sensitive information contains two key principles that require further guidance.

(i) Specific and Precise

The Requirements do not define what constitutes specific or precise information. What may constitute specific or precise information in one situation may possibly not do so in another, depending on the surrounding circumstances. The European Court of Justice has accepted a definition of "Precise" to be where:

- The information indicates a set of circumstances which exists or may reasonably be expected to come into existence or an event which has occurred or may reasonably be expected to do so; and
- The information is specific enough to enable conclusions to be drawn as to the possible effect of that set of circumstances or event on the price of a share.

Specific should have a similar meaning and the grammatical meaning should also be considered.

Taking into account the above statements, it would be fair to say that a reasonable degree of certainty is required to conclude that information is specific or precise.

(ii) Material Effect

After confirming that the information may be specific or precise, issuers must assess whether such information may have a material effect on the price of the issuer's securities. Materiality must be assessed both quantitatively and qualitatively. Issuers should be mindful that there is no firm figure (percentage change or otherwise) that can be set for any issuer as this will surely vary from issuer to issuer taking into account the variety of factors.

The JSE suggest that issuers also consider the following in making the assessment whether the information would have a material effect on the price of the issuer's securities.

"Under the securities laws of the United States, information is material if a reasonable investor is likely to consider it significant in making an investment decision..."

From a Requirements perspective consideration must be given whether the information could influence the economic decisions of investors in respect of the issuer's securities. This assessment should take into consideration the anticipated impact of the information in light of (i) the whole of the issuer's activities, (ii) the reliability of the source of the information and (iii) other market variables likely to affect the relevant listed securities in the circumstances. Information which is considered to be relevant to a reasonable investor's decision includes information which affects:

- The assets and liabilities of the issuer;
- The performance, or the expectation of the performance of the issuer's business;
- The financial condition of the issuer;
- The course of the issuer's business, including the consideration of material risks;

- Major new developments in the business of the issuer; and
- Information previously disclosed to the market.

(iii) Board Policy

The JSE acknowledges and appreciates that various subjective tests must be applied by the directors of issuers and their sponsor in order to determine whether information is price sensitive information for purposes of the Requirements. On this basis, the JSE has spent a considerable amount of time and has consulted widely in the formulation of the above practice note which should be used as a tool by directors and sponsors to apply the correct interpretation to the meaning of price sensitive information.

The JSE therefore strongly advises issuers to have a policy in place to assist the directors in applying the provisions of this practice note on whether any details, directly or indirectly, relating to the issuer constitutes price sensitive information.

Practice Note 3/2017

Introduction

Pursuant to 6.42 of the Requirements, issuers have a responsibility to report restatements to the JSE. The JSE wishes to provide more application guidance on restatements.

1) When to report a restatement

For clarity purposes, the JSE wishes to confirm that previously published results cover (i) interim results (ii) summary financial statements (iii) condensed financial statements and (iv) annual financial statements whether published separately or as part of another document which are restated and republished.

2) Which restatements

Restatements (also sometimes referred to as re-presentations) of previous published results can occur in the following instances:

- (i) a new accounting standard or interpretation is issued by the IASB, which requires retrospective application;
- (ii) the application of paragraph 34 to 36 of IFRS 5 – *Non-current Assets Held for Sale and Discontinued Operations* and/or paragraph 28 of IAS 33-*Earnings per Share* and/or paragraph 29 of IFRS 8 – *Operating Segments* and/ or paragraph 45 of *IFRS 3*;
- (iii) a voluntary change of accounting policy or change in the application of IFRS;
- (iv) a reclassification of amounts disclosed in the prior period financials;
- (v) the correction of a material prior period error; and/or
- (vi) for some other reason.

The JSE does not wish to be advised of any restatements in respect of (i) and (ii) above. Furthermore, the JSE only requires notification of restatements that impact earning per share, headline earnings per share, and/or the amounts presented in –

- the statement of financial position;
- the statement of profit or loss and other comprehensive income;
- the statement of changes in equity; and/or
- the statement of cash flows.

The same restatement will often appear in the interim results, condensed financial statements, summary financial statements or annual financial statements. Notification of restatements need only occur once for each change.

3) How to report a restatement

Instead of communicating the restatement notification to the JSE via e-mail, the notification must be produced to the JSE when submitting the annual financial statements and annual compliance certificate through WEBSTIR. The notification must:

- (i) contain sufficient information through a detailed narrative for the JSE to understand the nature and circumstances that led to each specific restatement;
- (ii) details regarding how and when the need for restatement was identified;
- (iii) the impact of the restatement on previously published results;
- (iv) other than in the instance of 2(iii) above, include a letter from the chairman of the audit committee confirming that the board has considered the circumstances that lead to the restatement and has implemented steps to prevent the reoccurrence of such a restatement;
- (v) in the instance where another restatement occurs after the audit committee letter has been issued, the notification should highlight this fact; and
- (vi) where the further restatement referred to in 3(v) above is a related matter, explain how the audit committee has addressed the fact that the preventative measures it implemented in terms of its initial notification to the JSE did not succeed.
